

LIBRARY SCIENCE (LIBR)

LIBR 110 - Introduction to Library & Information Resources

An introduction to the resources/services of Bailey Library and use of subject-related information. Students will learn how to find, select, analyze, synthesize, integrate, and ethically use information.

Credits: 1

Term(s) Typically Offered: Offered Fall, Winter, & Spring

LIBR 120 - Information Resources for Lifelong Learning

The course is aimed at increasing critical thinking skills for application in professional and real-life situations. Students will learn how to become aware of misinformation, biases, diverse perspectives, and ethical/legal issues that surround all types of information.

Credits: 1

Term(s) Typically Offered: Offered Every Term

LIBR 139 - Foundations of Academic Discovery

Foundations of Academic Discovery serves as the entry point to the Rock Integrated Studies Program. With its strong faculty-student interaction, the course promotes intellectual inquiry, critical and creative thinking, and computer skills needed for academic success. Through varied content, the course introduces students to academic discourse and information literacy while exploring topics such as diversity and inclusion and global awareness. This course will set students along the path to becoming engaged with issues and scholarship important to a 21st century education while they learn about themselves and their place in the world.

Credits: 3

Term(s) Typically Offered: Offered as Needed

Enrollment limited to students with a semester level of Freshman 1 or Freshman 2.

Enrollment limited to students with the ROCK STUDIES 2 STUDENT or ROCK STUDIES STUDENT attributes.

LIBR 190 - Experimental

A unique and specifically focused course within the general purview of a department which intends to offer it on a "one time only" basis and not as a permanent part of the department's curriculum.

Credits: 1-3
