Term(s) Typically Offered: Offered Fall Terms

Enrollment is limited to students with a program in Accountancy, Business Adm-Accountng/Finance, Business Adm-Management/Mrktng, Business Administration or Business Administration (OL).

Enrollment is limited to Graduate level students.

ACCT 622 - Fraud Examination

This course is designed as a case-study approach that enables students to identify key signs of fraud in financial statements. This course might also cover types of fraud, sources of evidence, and analysis of internal and external fraud schemes with an emphasis on the skills needed to identify, investigate and litigate fraud and forensic accounting allegations.

Credits: 3

Term(s) Typically Offered: Offered Summer Terms

Enrollment is limited to Graduate level students.

ACCT 623 - Non-Profit/Government Accounting

This course is designed to provide students with a detailed understanding of accounting and reporting for federal, state and local governments in accordance with pronouncements issued by the Governmental Accounting Standards Board (GASB). This course will also cover the unique accounting and financial reporting needs of governmental, non-governmental, and non-profit organizations.

Credits: 3

Term(s) Typically Offered: Offered Summer Terms

Enrollment is limited to Graduate level students.

ACCT 626 - Budgeting, Performance Management, and Cost Analysis

This course is based on the study of the concepts, measures, techniques, and approaches for strategic and operational decision-making based on managerial and cost accounting. The emphasis is on understanding and developing accounting and economic concepts for decision making within profit-making organizations related to such topics as short-term and long-term planning, performance measurement, and traditional and contemporary product costing systems. The course will emphasize the application of concepts and approaches to small and large-sized domestic and global organizations. Contemporary strategic and operational decision-making issues are stressed, as well as how use of information provided by costing systems and cost analysis informs strategic and operational decision-making.

Credits: 3

Term(s) Typically Offered: Offered Spring Terms

Enrollment is limited to Graduate level students.

ACCT 628 - Financial Statement Analysis

This course includes an evaluation of publicly traded company financial statements and related note disclosures to understand a company's current and future performance as well as financial condition. The focus of the course is on comprehensive analysis of financial statements using different techniques to determine the operating efficiency, profitability and financial risk of a company.

Credits: 3

Term(s) Typically Offered: Offered Fall Terms

Enrollment is limited to Graduate level students.

ACCT 629 - Accounting Data Analytics

This course examines the emerging roles of accounting analytics in business, auditing, and tax contexts. Technological advances have allowed the capture and economic storage of massive accounting and business data; this course focuses on how to productively gather and apply Big Data to a variety of accounting related contexts. Students will learn to understand the data within major accounting information systems and generate meaningful accounting and auditing analytics from the data. A deep understanding of accounting flows, processes, and controls is critical to understanding and building meaningful accounting and auditing analytics. ACCT 629 is dual listed as ACCT 429.

Prerequisite: ACCT 230^D

^D Requires minimum grade of D.

Credits: 3

Term(s) Typically Offered: Offered Spring Terms

Enrollment is limited to Graduate level students.

ACCT 630 - Risk Analysis and Internal Control

This course examines fundamentals of risk assessment, including an overview of corporate governance, risk assessment essentials, audit universe, audit engagement, risk appetite, and fraud. Failures in risk management and causes will be reviewed. Additionally, exploration of internal controls, including preventive controls, essential components of internal control, and inherent limitations of internal controls are explored.

Credits: 3

Term(s) Typically Offered: Offered Spring Terms

Enrollment is limited to Graduate level students.

ACCT 631 - Federal Corporate Tax

This course will explore how important features of the Internal Revenue Code influence decisions regarding how to organize and structure business operations and selection of the most appropriate form of doing business. Tax planning is an integral part of the course. Also, the course will explore income shifting, tax deductions, tax credits, and income exclusions as it relates to corporate tax.
