

SPECIAL EDUCATION SCHOOL SUPERVISION, POST-MASTER'S CERTIFICATION

This program focuses on major roles of leadership in basic education. Students will examine best practices literature regarding the professional knowledge, skills, and dispositions required of leaders in education. They will inquire into major contemporary theories and practices of leadership for: organizing educational communities; designing and monitoring the quality of instruction; designing management processes and procedures; and forming collaborative relationships within the community.

The program is presented as a collaborative effort of two departments in the College of Education, the Department of Special Education and The Department of Secondary Education/Foundations of Education. Faculty are committed to implementing a professional model for the preparation of educational leaders that complies with current curriculum guidelines proposed by the National Council for the Accreditation of Teacher Education (NCATE), and the Association for Supervision and Curriculum Development (ASCD).

In order to be eligible for Pennsylvania certification in School Supervision, candidates must complete an approved program and have at least five years teaching experience in special education.

Program admission criteria include unconditional admission to graduate studies and Pennsylvania Special Education Level II Certification.

The Post-Master's School Supervision Program is designed for students who already have a master's degree in Special Education and want to become certified Special Education Supervisors.
