

TECHNOLOGY FOR ONLINE INSTRUCTION, MASTER OF EDUCATION (MED)

The Master of Education in Technology for Online Instruction will include 30 credits of coursework aimed at building student knowledge and skills in using web-based tools to effectively create an online K-12 teaching environment. Students will be able to apply the tools and skills based on research based strategies and pedagogy. The final course will include a capstone project, where students will develop an online module including lessons, activities, assessments, synchronous and asynchronous instruction and other methods of instruction that were developed through courses in the program.

This program will be offered completely online.
