Candidates completing this program are eligible to sit for the two-part Association State Boards of Geology (ASBOG) examination required for a Professional Geologist license in Pennsylvania. The first examination, Fundamentals of Geology, can be taken upon graduation. The second examination, Principles and Practices of Geology, can be taken after working for five years. Regulations for licensing vary by state and you are urged to check with the licensing board in the state you will be working.

## Environmental Science, Minor

Environmental science is the integration of scientific knowledge from many disciplines in order to understand the interrelationships between human activities and the environment. Environmental science minors are exposed to the general principles of biology, chemistry, geology, geography, meteorology, and physics. Students learn how the interactions of all of these processes contribute to the operation of our earth system. This knowledge can prepare students for careers in water and air quality management, nature conservation, or planning for climate change.

MINOR IN GEOGRAPHIC INFORMATION TECHNOLOGY (32C)

This program is effective as of Fall 2003.

Revised 8-2019

## Geography, Bachelor of Science (BS) - Concentration in Applied Geographic Technology

Students in the Applied Geographic Technology program study the links between human beings and their environment as well as the links between one area of the earth's surface with another. This program is designed to prepare students for employment in technical occupations, planning, or postgraduate studies. The applied geographic technology student investigates the geographic study of environmental, economic, cultural, and political processes and becomes proficient in the fast growing field of geographic information technology. This program emphasizes the collection, analysis, and representation of earth data at scales ranging from the local to the global. Opportunities abound for students to engage in fieldwork, internships, and in the production of research in our department. If you enjoy learning about the Earth and its peoples and landscapes, either in your back yard or far away, please consider the opportunities our program provides.

The Applied Geographic Technology program provides students with a base in liberal arts skills (critical thinking, writing, and speaking) and in analytical skills such as data collection in the field, in the library, and on the computer; the use of global positioning systems; and the use of mapping, spreadsheet, and database software. Many of our students have found work that allows them to address important environmental and social issues in the private or public sector. Representative employment areas for our graduates include environmental consulting, pollution remediation, environmental monitoring, environmental law or public policy, resource management, geographic information systems analysis, nonprofit environmental organizations, and planning.

## Geography, Bachelor of Science (BS) - Concentration in Environmental Studies & Sustainability

Students in the environmental studies program study the links between humans and their environment. This program takes an interdisciplinary approach and integrates knowledge from the social and natural sciences in the study of environmental issues. An important goal of the program is for students to understand the relationships that exist between social, behavioral, and environmental systems. We emphasize the collection, analysis, and representation of earth data at scales ranging from the local to the global. Toward the end of their studies, students identify a research problem, gather and analyze data, and prepare a formal paper and presentation on their topic. Opportunities abound for students to engage in fieldwork, internships, and in the production of research in our department.

The environmental studies program provides students with a base in liberal arts skills (critical thinking, writing, and speaking) and in analytical skills such as data collection in the field, in the library, and on the computer; the use of global positioning systems; the use of mapping, spreadsheet, and database software. Many of our students have found work that allows them to address important environmental and social issues in the private or public sector. Representative employment areas for our graduates include environmental consulting, pollution remediation, environmental law or public policy, outdoor education, resource management, geographic information systems analysis, nonprofit environmental organizations, and planning.

## Geography, Bachelor of Science (BS) - Concentration in Global Studies

The global studies program offers students an interdisciplinary perspective on our globalized world. Students in this program gain an understanding of the basic physical, cultural, economic, and political forces that shape our world, as well as in-depth exploration of particular places and regions of importance. Global studies majors learn to think cross-culturally about the major problems facing our world, and prepare for careers with an international focus.

The global studies program provides students with a base in liberal arts skills (critical thinking, writing, and speaking) and in analytical skills such as data collection in the field, in the library, and on the computer; the use of global positioning systems; the use of mapping, spreadsheet, and database software. Many of our students have found work that allow them to address important environmental and social issues in the private or public sector. Representative employment areas for our graduates include environmental consulting, pollution remediation, environmental law or public policy, outdoor education, resource management, geographic information systems analysis, nonprofit environmental organizations, and planning.

### Program Learning Outcomes Geography, BS

## Geology, Minor

The Geology minor provides students with a scientific understanding of the Earth and surrounding environment. The student in geology gains an understanding of the various terrestrial processes and features (mountains, oceans, volcanoes, glaciers); the immenseness of geologic time, the history of the earth and organisms that inhabit it (fossils); the role of water, fuel, and mineral resources in the development of civilization; and the close interaction between the geologic and organic environments. Demand for the professional geologist comes from the needs of engineering, hydrogeologic and environmental firms; geological surveys; oil, gas and mining companies; state and national parks; museums; conservation agencies; planning commissions; and teaching institutions.

**STAT 252 - Introduction to Statistical Modeling**

What do we mean when we talk about "statistical modeling"? How can statistical models be used to provide evidence for scientific or social theories? In this course, we begin by reviewing hypothesis testing and learn how hypothesis testing is applied in a wide variety of statistical contexts. We then move on to the workhouse of statistical modeling, linear regression, and learn the complex methods used to determine the validity of regression models. We then touch on analysis of variance models, polynomial regression, and time series. R will be used for data analysis, but no prior knowledge of R is assumed.

## Actuarial Science, Minor

Actuaries use mathematics, statistics, predictive analytics, finance, and economics to predict the occurrence of uncertain events and their financial impact to minimize risk in business, finance, government, insurance, retirement planning, etc. Actuarial careers are always listed among the top ten jobs in the world based on salary, work/life balance, low levels of stress, and lateral and upward mobility. It is one of the most clearly defined career paths for mathematicians. The advanced training actuaries acquire in predictive analytics enables them to make important contributions to many fields including sports analytics. The Actuarial Science Minor (<https://www.sru.edu/academics/majors-and-minors/actuarial-studies-minor/>) provides the coursework to prepare students for up to five actuarial exams and Validation by Educational Experience (VEE) credit in all three areas approved by the Society of Actuaries.

## Elementary School Mathematics, Minor

SRU's minor in Elementary School Mathematics is a strong add-on for degrees in Early Childhood Education or Special Education. Three of the required courses are already part of those majors, setting many students up to finish this minor with just 4 further courses. This focused math credential can help a teacher's job application to stand out among the competition: it highlights flexibility, reliability, and potential for greater creativity and depth in teaching math to children.

\*\* This document is meant to serve as a guide. Some planners may show more than 120 credits because faculty have created flexibility in choosing courses. However, only 120 credits are required to obtain a degree. Please consult with your academic adviser and refer to your curriculum guide prior to registering for courses. This plan should be reviewed, and verified, by you and your academic adviser at least once each academic year.

## Mathematics, Minor

Mathematics has often been referred to as the “language of the sciences” because of the fundamental way in which the sciences depend on it. In modern society, its applications extend well beyond the sciences to many diverse fields including engineering, finance, economics, supply chain management, sports analytics, statistics, and data science. The Mathematics Minor prepares students for the mathematical rigors of these fields. It also provides outstanding preparation for anyone planning to attend many graduate programs including engineering, finance, economics, and data science.

## Middle School Mathematics, Minor

SRU's minor in Middle School Mathematics is a useful add-on for students planning to teach secondary math, or non-math subjects in middle school. Future secondary teachers gain deeper insight into teaching students at the younger end of their Grades 7-12 certification, and future middle school teachers in English, Social Studies, or Science can enhance their ability to handle a dual-subject assignment with just 3-4 extra courses beyond what their major already requires. This additional credential can help a teacher's job application to stand out among the competition: it highlights flexibility, reliability, and potential for greater creativity and depth in teaching math.

## Secondary School Mathematics, Minor

The high school mathematics curriculum covers a wide range of content including algebra, geometry, trigonometry, calculus, and statistics. Secondary school mathematics minors not only learn these topics at a fundamental level, but they also learn how to effectively communicate these concepts to students at a grade appropriate level. Most students completing the secondary school mathematics minor go on to get their permanent teaching certification and work as high school math teachers. Additionally, some students choose to work with math tutoring centers, math summer camps, accelerated math programs, and/or science museums.

## Statistics, Minor

Statisticians specialize in the collection, organization, presentation, and analysis of data. They work with professionals from a variety of fields to leverage data to inform almost every aspect of society and life: business practice, scientific research, finance, and public policy, among other areas. In 2022, "Statistician" is one of the top three jobs in the world based on income, stress level, quality of life, and growth potential, and the field has a projected growth of 35% (careercast.com)!

The Department of Mathematics and Statistics minor in statistics will give you both a good theoretical grounding in statistics as well as a broad understanding of applied statistics through project-based coursework. You will learn multiple computer-based platforms for completing statistical tasks, including Microsoft Excel, R, SAS, and Python. We will provide you with ample opportunities to work on research projects, and we will encourage you to present your research at SRU's undergraduate symposium and at professional conferences. Because of the amount of experience our students gain working with different statistical software packages, completing analysis projects, and engaging in research, our students are sought after both for internships while they are completing their undergraduate studies and entry-level positions for statistics and data science.

## Academic Policies for Students in the Exercise Science Major

*Effective for all Exercise Science Majors beginning Spring 2021*

1. Policy for earning acceptable grades in the Exercise Science program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (EXSC 100's, EXSC 200's, EXSC 300's) and Required Upper Level Courses (EXSC 400's, EXSC 410's, EXSC 424, EXSC 450).
  - b. A student must earn a grade of "C" or better in ALL Natural Science and Math College-Wide Requirements (BIOL 209, BIOL 309, BIOL 216, BIOL 217, STAT 152, PHYS 201).
  - c. The Exercise Science curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.
3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.
4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.
  - b. A transfer student who enters from another University must have an overall GPA of 2.00.
5. Additional costs associated with the Exercise Science major:
  - a. Lab fees will be collected for exercise science classes with a lab component. This fee enhances the department's ability to offer a high-quality program.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

- b. A student in the Exercise Science major is required to maintain current CPR/AED, First Aid, and Student Professional Liability Insurance while enrolled in EXSC 412 and EXSC 450 at their own cost. More information will be provided to students in the upper level EXSC courses.
- c. EXSC 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

\* All undergraduate degree programs require a minimum of 120 credits. Some courses meet multiple requirements, but are only counted once toward the 120 credit total required to graduate. However, because this is a pre-professional program, credits taken during the 1<sup>st</sup> year of the graduate program are applied toward the undergraduate credit hours to meet the 120 credits required for your undergraduate degree.

2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)

- a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.
4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.
  - b. A transfer student who enters from another University must have an overall GPA of 2.00.
5. Additional costs associated with the Exercise Science major:
  - a. Lab fees will be collected for exercise science classes with a lab component. This fee enhances the department's ability to offer a high-quality program.
  - b. A student in the Exercise Science major is required to maintain current CPR/AED, First Aid, and Student Professional Liability Insurance while enrolled in EXSC 412 and EXSC 450 at their own cost. More information will be provided to students in the upper level EXSC courses.
  - c. EXSC 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations,

### Requirements for Pre-Athletic Training SRU 3+2:

If any of these requirements are not met, the 3+2 designation will be removed from the student's record:

1. A 3.0 or higher overall GPA must be maintained by the student.
2. The student can only be enrolled in the Pre-Athletic Training SRU 3+2 program for a maximum of three (3) years, full-time continuous enrollment (fall/spring).

#### Provision:

Should a Pre-Athletic Training SRU 3+2 student be unsuccessful in completing the 1st three semesters (summer or fall or spring terms) of the Athletic Training Graduate Program and want to complete the original undergraduate degree, it is solely up to the discretion of the undergraduate program Department Chair to determine which, if any, graduate level AT courses will count toward the completion of his/her undergraduate degree. In addition, students must complete any unfulfilled requirements of their undergraduate major. Students may still apply to the AT program with an earned Bachelor's degree.

## Important Curriculum Guide Notes

This Curriculum Guide is provided to help SRU students and prospective students better understand their intended major curriculum. Enrolled SRU students should note that the My Rock Audit may place already-earned and/or in progress courses in different, yet valid, curriculum categories. Enrolled SRU students should use the My Rock Audit Report and materials and information provided by their faculty advisers to ensure accurate progress towards degree completion. *The information on this guide is current as of the date listed. Students are responsible for curriculum requirements at the time of enrollment at the University.*

\* Students are encouraged to take ESAP 101 as a Free Elective.

Students must meet all Exercise Science 3+2 major requirements, SRU Athletic Training (AT) Graduate Program prerequisites, and Rock studies requirements to apply.

**Senior Year- If accepted into the SRU AT Graduate Program:** The first year will count as the 4th year of the Exercise Science program. Upon successful completion of the first year of the SRU AT Graduate Program, students will graduate with a BS in Exercise Science. Should an Exercise Science 3+2 student be unsuccessful in completing the 1st year of the SRU AT Graduate Program and wants to complete their original undergraduate degree, it is solely up to the discretion of their undergraduate program Department Chair to determine which, if any Athletic Training courses will count toward the completion of their undergraduate degree. In addition, students must complete EXSC 450: Exercise Science Internship (12 credits).

**Senior Year- If not accepted into SRU AT Graduate Program:** If you choose to pursue Exercise Science 3+2 and are not accepted into SRU AT Graduate Program, then EXSC 450: Exercise Science Internship (12 credits) is required to complete a first major of Exercise Science. Please refer to the Exercise Science Curriculum Guide.

*\*\* This document is meant to serve as a guide. Some planners may show more than 120 credits because faculty have created flexibility in choosing courses. However, only 120 credits are required to obtain a degree. Please consult with your academic adviser and refer to your curriculum guide prior to registering for courses. This plan should be reviewed, and verified, by you and your academic adviser at least once each academic year.*

## Exercise Science, Bachelor of Science (BS) / Pre-Athletic Training (SRU) (Traditional)

### EXERCISE SCIENCE PROGRAM LEARNING OUTCOMES

- **Professional Competence:** To utilize knowledge, skills, and abilities to evaluate health behavior and risk factors; develop, implement, and evaluate evidence-based exercise and wellness programs, and employ behavioral strategies to motivate individuals to adopt and maintain positive lifestyle behaviors. UO 3,4,5
- **Professional Interaction and Communication:** To interact and communicate effectively by presenting information in oral and written formats, collaborating with professionals and peers, expressing ideas clearly, and giving and receiving feedback. UO 1
- **Professional Behavior and Involvement:** To model professional behaviors (including preparedness, engagement, and appearance), and demonstrate professional involvement across the major. UO 5,7,9
- **Ethical Reasoning:** To make well-informed and unbiased decisions to enhance the well-being of others. UO 8,10
- **Critical Thinking:** To demonstrate clear and accurate reasoning to make decisions and solve problems. UO 2

### What are your options?

**Pre-Athletic Training SRU 3+2:** Earn a Master of Science degree in Athletic Training in five years rather than six. In the first three years, you

complete your major courses and pre-requisites for the SRU AT graduate program. During your third undergraduate year, you apply for admission into the SRU AT graduate program. If accepted, your first year in the SRU AT graduate program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Athletic Training (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU AT graduate program and apply to the SRU AT graduate program in your senior year.

## Academic Policies for Students in the Exercise Science Major

*Effective for all Exercise Science Majors beginning Spring 2021*

1. Policy for earning acceptable grades in the Exercise Science program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (EXSC 100's, EXSC 200's, EXSC 300's) and Required Upper Level Courses (EXSC 400's, EXSC 410's, EXSC 424, EXSC 450).
  - b. A student must earn a grade of "C" or better in ALL Natural Science and Math College-Wide Requirements (BIOL 209, BIOL 309, BIOL 216, BIOL 217, STAT 152, PHYS 201).
  - c. The Exercise Science curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly

2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.
4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.
  - b. A transfer student who enters from another University must have an overall GPA of 2.00.
5. Additional costs associated with the Exercise Science major:
  - a. Lab fees will be collected for exercise science classes with a lab component. This fee enhances the department's ability to offer a high-quality program.
  - b. A student in the Exercise Science major is required to maintain current CPR/AED, First Aid, and Student Professional Liability Insurance while enrolled in EXSC 412 and EXSC 450 at their own cost. More information will be provided to students in the upper level EXSC courses.
  - c. EXSC 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Exercise Science, Bachelor of Science (BS) / Pre-Chiropractic (Logan) (3+3)

### EXERCISE SCIENCE PROGRAM LEARNING OUTCOMES

- **Professional Competence:** To utilize knowledge, skills, and abilities to evaluate health behavior and risk factors; develop, implement, and evaluate evidence-based exercise and wellness programs, and employ behavioral strategies to motivate individuals to adopt and maintain positive lifestyle behaviors. UO 3,4,5
- **Professional Interaction and Communication:** To interact and communicate effectively by presenting information in oral and written formats, collaborating with professionals and peers, expressing ideas clearly, and giving and receiving feedback. UO 1
- **Professional Behavior and Involvement:** To model professional behaviors (including preparedness, engagement, and appearance), and demonstrate professional involvement across the major. UO 5,7,9
- **Ethical Reasoning:** To make well-informed and unbiased decisions to enhance the well-being of others. UO 8, 10
- **Critical Thinking:** To demonstrate clear and accurate reasoning to make decisions and solve problems. UO 2

## WHAT ARE YOUR OPTIONS?

**Pre-Chiropractic Logan 3+3:** Earn a Doctor of Chiropractic (DC) in six years rather than seven. In the first three years, you complete your major courses and pre-requisites for the Logan University DC graduate program. All students who successfully complete the Pre-Chiropractic program with a cumulative GPA of 3.0 or higher and meet all other criteria for admission will be accepted and transfer to Logan's DC program. On completion of your first year and minimally 30 credits, you will receive your bachelor's degree from SRU. You will then continue at Logan to complete the requirements for the DC degree. The accelerated option is for incoming freshmen only.

## Academic Policies for Students in the Exercise Science Major

*Effective for all Exercise Science Majors beginning Spring 2021*

1. Policy for earning acceptable grades in the Exercise Science program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (EXSC 100's, EXSC 200's, EXSC 300's) and Required Upper Level Courses (EXSC 400's, EXSC 410's, EXSC 424, EXSC 450).
  - b. A student must earn a grade of "C" or better in ALL Natural Science and Math College-Wide Requirements (BIOL 209, BIOL 309, BIOL 216, BIOL 217, STAT 152, PHYS 201).
  - c. The Exercise Science curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.
4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.
  - b. A transfer student who enters from another University must have an overall GPA of 2.00.
5. Additional costs associated with the Exercise Science major:
  - a. Lab fees will be collected for exercise science classes with a lab component. This fee enhances the department's ability to offer a high-quality program.
  - b. A student in the Exercise Science major is required to maintain current CPR/AED, First Aid, and Student Professional Liability Insurance while enrolled in EXSC 412 and EXSC 450 at their own cost. More information will be provided to students in the upper level EXSC courses.
  - c. EXSC 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

### Pre-Occupational Therapy SRU 3+3

If any of these requirements are not met, the 3+3 designation will be removed from the student's record:

1. A 3.0 or higher overall GPA must be maintained by the student.
2. The student can only be enrolled in the Pre-Occupational Therapy SRU 3+3 program for a maximum of three (3) years, full-time continuous enrollment (fall/spring).

### Provision

Should a Pre-Occupational Therapy SRU 3+3 student be unsuccessful in completing the 1<sup>st</sup> two semesters (summer or fall) of the Occupational Therapy Program and wants to complete the original undergraduate degree, it is solely up to the discretion of the undergraduate program Department Chair to determine which, if any, Occupational Therapy courses will count toward the completion of his/her undergraduate degree. In addition, students must complete any unfulfilled requirements of their undergraduate major. Students may still apply to the Doctor of Occupational Therapy Program with an earned Bachelor's degree.

## Important Curriculum Guide Notes

This Curriculum Guide is provided to help SRU students and prospective students better understand their intended major curriculum. Enrolled SRU students should note that the My Rock Audit may place already-earned and/or in progress courses in different, yet valid, curriculum categories. Enrolled SRU students should use the My Rock Audit Report and materials and information provided by their faculty advisers to ensure accurate progress towards degree completion. *The information on this guide is current as of the date listed. Students are responsible for curriculum requirements at the time of enrollment at the University.*

<sup>4</sup> **Senior Year- If not accepted into SRU OTD:** If you choose to pursue Exercise Science 3+3 and are not accepted into graduate SRU OTD, then EXSC 450: Exercise Science Internship (12 credits) is required to complete a first major of Exercise Science. Please refer to the Exercise Science Curriculum Guide.

<sup>5</sup> Students must complete this 12 credit requirement by registering for two sections of this 6-cr hour course in the same semester

\* Students are encouraged to take ESAP 101 as a Free Elective.

Students must meet all Exercise Science 3+3 major requirements, SRU Occupational Therapy Doctorate (OTD) Program prerequisites, and rock studies 2 requirements to apply.

**Senior Year- If accepted into the SRU OTD:** The first year will count as the 4th year of the Exercise Science program. Upon successful completion of the first year of the SRU OTD, students will graduate with a BS in Exercise Science. Should an Exercise Science 3+3 student be unsuccessful in completing the 1<sup>st</sup> year of the SRU OTD and wants to complete their

original undergraduate degree, it is solely up to the discretion of their undergraduate program Department Chair to determine which, if any Occupational Therapy courses will count toward the completion of their undergraduate degree. In addition, students must complete EXSC 450: Exercise Science Internship (12 credits).

*\*\* This document is meant to serve as a guide. Some planners may show more than 120 credits because faculty have created flexibility in choosing courses. However, only 120 credits are required to obtain a degree. Please consult with your academic adviser and refer to your curriculum guide prior to registering for courses. This plan should be reviewed, and verified, by you and your academic adviser at least once each academic year.*

## Exercise Science, Bachelor of Science (BS) / Pre-Occupational Therapy (SRU) (Traditional)

### EXERCISE SCIENCE PROGRAM LEARNING OUTCOMES

- **Professional Competence:** To utilize knowledge, skills, and abilities to evaluate health behavior and risk factors; develop, implement, and evaluate evidence-based exercise and wellness programs, and employ behavioral strategies to motivate individuals to adopt and maintain positive lifestyle behaviors. UO 3,4,5
- **Professional Interaction and Communication:** To interact and communicate effectively by presenting information in oral and written formats, collaborating with professionals and peers, expressing ideas clearly, and giving and receiving feedback. UO 1
- **Professional Behavior and Involvement:** To model professional behaviors (including preparedness, engagement, and appearance), and demonstrate professional involvement across the major. UO 5,7,9
- **Ethical Reasoning:** To make well-informed and unbiased decisions to enhance the well-being of others. UO 8,10
- **Critical Thinking:** To demonstrate clear and accurate reasoning to make decisions and solve problems. UO 2

### What are your options?

**Pre-Occupational Therapy SRU 3+3:** Earn a Doctor of Occupational Therapy in six years rather than seven. In the first three years, you complete your major courses and pre-requisites for the SRU OTD program. At the end of your second year, you apply for admission into the SRU OTD program. If accepted, your first year in the SRU OTD program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Occupational Therapy (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU OTD program and apply to the SRU OTD program in your senior year.

## Academic Policies for Students in the Exercise Science Major

*Effective for all Exercise Science Majors beginning Spring 2021*

1. Policy for earning acceptable grades in the Exercise Science program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (EXSC 100's, EXSC 200's, EXSC 300's) and Required Upper Level Courses (EXSC 400's, EXSC 410's, EXSC 424, EXSC 450).
  - b. A student must earn a grade of "C" or better in ALL Natural Science and Math College-Wide Requirements (BIOL 209, BIOL 309, BIOL 216, BIOL 217, STAT 152, PHYS 201).
  - c. The Exercise Science curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.
3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.

4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.
  - b. A transfer student who enters from another University must have an overall GPA of 2.00.
5. Additional costs associated with the Exercise Science major:
  - a. Lab fees will be collected for exercise science classes with a lab component. This fee enhances the department's ability to offer a high-quality program.
  - b. A student in the Exercise Science major is required to maintain current CPR/AED, First Aid, and Student Professional Liability Insurance while enrolled in EXSC 412 and EXSC 450 at their own cost. More information will be provided to students in the upper level EXSC courses.
  - c. EXSC 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

UO 3,4,5
- **Professional Interaction and Communication:** To interact and communicate effectively by presenting information in oral and written formats, collaborating with professionals and peers, expressing ideas clearly, and giving and receiving feedback. UO 1
- **Professional Behavior and Involvement:** To model professional behaviors (including preparedness, engagement, and appearance), and demonstrate professional involvement across the major. UO 5,7,9

- **Critical Thinking:** To demonstrate clear and accurate reasoning to make decisions and solve problems. UO 2

## What are your options?

**Pre-Physical Therapy SRU 3+3:** Earn a Doctor of Physical Therapy in six years rather than seven. In the first three years, you complete your major courses and pre-requisites for the SRU DPT program. During your third undergraduate year, you apply for admission into the SRU DPT program. If accepted, your first year in the SRU DPT program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Physical Therapy (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU DPT program and apply to the SRU DPT program in your senior year.

## Academic Policies for Students in the Exercise Science Major

*Effective for all Exercise Science Majors beginning Spring 2021*

1. Policy for earning acceptable grades in the Exercise Science program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (EXSC 100's, EXSC 200's, EXSC 300's) and Required Upper Level Courses (EXSC 400's, EXSC 410's, EXSC 424, EXSC 450).
  - b. A student must earn a grade of "C" or better in ALL Natural Science and Math College-Wide Requirements (BIOL 209, BIOL 309, BIOL 216, BIOL 217, STAT 152, PHYS 201).
  - c. The Exercise Science curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.
4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.
  - b. A transfer student who enters from another University must have an overall GPA of 2.00.
5. Additional costs associated with the Exercise Science major:
  - a. Lab fees will be collected for exercise science classes with a lab component. This fee enhances the department's ability to offer a high-quality program.
  - b. A student in the Exercise Science major is required to maintain current CPR/AED, First Aid, and Student Professional Liability Insurance while enrolled in EXSC 412 and EXSC 450 at their own cost. More information will be provided to students in the upper level EXSC courses.
  - c. EXSC 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

### Requirements for Pre-Physical Therapy SRU 3+3

If any of these requirements are not met, the 3+3 designation will be removed from the student's record:

1. A 3.0 or higher overall GPA must be maintained by the student.
2. The student can only be enrolled in the Pre-Physical Therapy SRU 3+3 program for a maximum of three (3) years, full-time continuous enrollment (fall/spring).

### Provision

Should a Pre-Physical Therapy SRU 3+3 student be unsuccessful in completing the 1st two semesters (fall or spring) of the Doctor of Physical Therapy Program and wants to complete the original undergraduate degree, it is solely up to the discretion of the undergraduate program Department Chair to determine which, if any, Physical Therapy courses will count toward the completion of his/her undergraduate degree. In addition, students must complete any unfulfilled requirements of their undergraduate major. Students may still apply to the Doctor of Physical Therapy Program with an earned Bachelor's degree.

### Important Curriculum Guide Notes

This Curriculum Guide is provided to help SRU students and prospective students better understand their intended major curriculum. Enrolled SRU students should note that the My Rock Audit may place already-earned and/or in progress courses in different, yet valid, curriculum categories. Enrolled SRU students should use the My Rock Audit Report and materials and information provided by their faculty advisers to ensure accurate progress towards degree completion. *The information on this guide is current as of the date listed. Students are responsible for curriculum requirements at the time of enrollment at the University.*

### Academic Policies for Students in the Exercise Science Major

**Effective for all Exercise Science Majors beginning Spring 2021**

1. Policy for earning acceptable grades in the Exercise Science program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (EXSC 100's, EXSC 200's, EXSC 300's) and Required Upper Level Courses (EXSC 400's, EXSC 410's, EXSC 424, EXSC 450).
  - b. A student must earn a grade of "C" or better in ALL Natural Science and Math College-Wide Requirements (BIOL 209, BIOL 309, BIOL 216, BIOL 217, STAT 152, PHYS 201).
  - c. The Exercise Science curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.

- ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
- iii. Students will need to meet with their Academic Advisor and change their schedule accordingly

2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.
4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.

## Exercise Science, Bachelor of Science (BS) / Pre-Physician Assistant (SRU) (3+2)

### EXERCISE SCIENCE PROGRAM LEARNING OUTCOMES

- **Professional Competence:** To utilize knowledge, skills, and abilities to evaluate health behavior and risk factors; develop, implement, and evaluate evidence-based exercise and wellness programs, and employ behavioral strategies to motivate individuals to adopt and maintain positive lifestyle behaviors. UO 3,4,5
- **Professional Interaction and Communication:** To interact and communicate effectively by presenting information in oral and written formats, collaborating with professionals and peers, expressing ideas clearly, and giving and receiving feedback. UO 1
- **Professional Behavior and Involvement:** To model professional behaviors (including preparedness, engagement, and appearance), and demonstrate professional involvement across the major. UO 5,7,9
- **Ethical Reasoning:** To make well-informed and unbiased decisions to enhance the well-being of others. UO 8,10
- **Critical Thinking:** To demonstrate clear and accurate reasoning to make decisions and solve problems. UO 2

### What are your options?

**Pre-Physician Assistant SRU 3+2:** Earn a Master of Science degree in Physician Assistant Studies in five years rather than six. In the first three years, you complete your major courses and pre-requisites for the SRU PA program. At the end of your second year, you apply for admission into the SRU PA program. If accepted, your first year in the SRU PA program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Physician Assistant (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU PA program and apply to the SRU PA program in your senior year.

### Academic Policies for Students in the Exercise Science Major

**Effective for all Exercise Science Majors beginning Spring 2021**

1. Policy for earning acceptable grades in the Exercise Science program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (EXSC 100's, EXSC 200's, EXSC 300's) and Required Upper Level Courses (EXSC 400's, EXSC 410's, EXSC 424, EXSC 450).
  - b. A student must earn a grade of "C" or better in ALL Natural Science and Math College-Wide Requirements (BIOL 209, BIOL 309, BIOL 216, BIOL 217, STAT 152, PHYS 201).
  - c. The Exercise Science curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:

- i. Retake the course
- ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
- iii. Students will need to meet with their Academic Advisor and change their schedule accordingly

2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.
4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.
  - b. A transfer student who enters from another University must have an overall GPA of 2.00.
5. Additional costs associated with the Exercise Science major:
  - a. Lab fees will be collected for exercise science classes with a lab component. This fee enhances the department's ability to offer a high-quality program.
  - b. A student in the Exercise Science major is required to maintain current CPR/AED, First Aid, and Student Professional Liability Insurance while enrolled in EXSC 412 and EXSC 450 at their own cost. More information will be provided to students in the upper level EXSC courses.
  - c. EXSC 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific

certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

Upon successful completion of the first year of the SRU PA Graduate Program, students will graduate with a BS in Exercise Science. Should an Exercise Science 3+2 student be unsuccessful in completing the 1<sup>st</sup> year of the SRU PA Graduate Program and wants to complete their original undergraduate degree, it is solely up to the discretion of their undergraduate program Department Chair to determine which, if any Physician Assistant courses will count toward the completion of their undergraduate degree. Pre-Physician Assistant SRU 3+2 (6SPE)

Revised: 02.10.2023

## Exercise Science, Bachelor of Science (BS) / Pre-Physician Assistant (SRU) (Traditional)

### EXERCISE SCIENCE PROGRAM LEARNING OUTCOMES

- **Professional Competence:** To utilize knowledge, skills, and abilities to evaluate health behavior and risk factors; develop, implement, and evaluate evidence-based exercise and wellness programs, and

employ behavioral strategies to motivate individuals to adopt and maintain positive lifestyle behaviors. UO 3,4,5

- **Professional Interaction and Communication:** To interact and communicate effectively by presenting information in oral and written formats, collaborating with professionals and peers, expressing ideas clearly, and giving and receiving feedback. UO 1
- **Professional Behavior and Involvement:** To model professional behaviors (including preparedness, engagement, and appearance), and demonstrate professional involvement across the major. UO 5,7,9
- **Ethical Reasoning:** To make well-informed and unbiased decisions to enhance the well-being of others. UO 8, 10
- **Critical Thinking:** To demonstrate clear and accurate reasoning to make decisions and solve problems. UO 2

## What are your options?

**Pre-Physician Assistant SRU 3+2:** Earn a Master of Science degree in Physician Assistant Studies in five years rather than six. In the first three years, you complete your major courses and pre-requisites for the SRU PA program. At the end of your second year, you apply for admission into the SRU PA program. If accepted, your first year in the SRU PA program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Physician Assistant (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU PA program and apply to the SRU PA program in your senior year.

## Academic Policies for Students in the Exercise Science Major

*Effective for all Exercise Science Majors beginning Spring 2021*

1. Policy for earning acceptable grades in the Exercise Science program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (EXSC 100's, EXSC 200's, EXSC 300's) and Required Upper Level Courses (EXSC 400's, EXSC 410's, EXSC 424, EXSC 450).
  - b. A student must earn a grade of "C" or better in ALL Natural Science and Math College-Wide Requirements (BIOL 209, BIOL 309, BIOL 216, BIOL 217, STAT 152, PHYS 201).
  - c. The Exercise Science curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: Repeat of Courses < Slippery Rock University (sru.edu) (<https://catalog.sru.edu/archive/2022-2023/academic-policies/repeat-of-courses/>)
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade.

Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis.

Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades.

In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.
3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and EXSC - Exercise Science Major courses will be removed from their schedule.
4. Policy for changing to the Exercise Science major:
  - a. A Slippery Rock University student wishing to change their major to Exercise Science MUST have an overall GPA of 2.00.
  - b. A transfer student who enters from another University must have an overall GPA of 2.00.
5. Additional costs associated with the Exercise Science major:
  - a. Lab fees will be collected for exercise science classes with a lab component. This fee enhances the department's ability to offer a high-quality program.
  - b. A student in the Exercise Science major is required to maintain current CPR/AED, First Aid, and Student Professional Liability Insurance while enrolled in EXSC 412 and EXSC 450 at their own cost. More information will be provided to students in the upper level EXSC courses.
  - c. EXSC 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

1. Policy for earning acceptable grades in the HCAM program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).
  - b. A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - c. The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly

2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
- Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.
  - Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
  - Additional costs associated with the HCAM major:
    - Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
    - A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.
    - HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

1. Policy for earning acceptable grades in the HCAM program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).
  - b. A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - c. The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.
3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
4. Additional costs associated with the HCAM major:
  - a. Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
  - b. A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in

HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.

- c. HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## HCAM, Bachelor of Science (BS) - Concentration in Leadership / Pre-Occupational Therapy (SRU) (3+3)

### What are your options?

**Pre-Occupational Therapy SRU 3+3:** Earn a Doctor of Occupational Therapy in six years rather than seven. In the first three years, you complete your major courses and pre-requisites for the SRU OTD program. At the end of your second year, you apply for admission into the SRU OTD program. If accepted, your first year in the SRU OTD program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Occupational Therapy (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU OTD program and apply to the SRU OTD program in your senior year.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for students entering the major Fall 2017 and after*

1. Policy for achieving and maintaining "Sufficient Academic Performance"<sup>1</sup>
  - a. At the end of the semester in which a student has earned 40 credits (and every semester thereafter), the Major and Overall GPA will be reviewed:

- i. A student must earn a 2.50 Major GPA to achieve "Sufficient Academic Performance" and continue in the HCAM major.
- ii. A student earning below a 2.50 in the Major GPA at any time after earning 40 credits will be placed on a "one semester probation."<sup>2</sup> He/she must increase his/her GPA to 2.50 or higher by the end of the "one semester probation" or be **permanently** removed from the HCAM major. The student will be notified by email of his/her status following the "one semester probation." A student who has not achieved "Sufficient Academic Performance" will have his/her major changed to Exploratory.
- iii. A student can be placed on a "one semester probation" a maximum of two times as an HCAM major. He/she will be **permanently** removed from the HCAM major if his/her Major GPA drops below a 2.50 a third time.
- iv. A student on a "one semester probation" may not enroll in required 400 Level Courses unless he/she is repeating the course(s).

- b. A transfer student who enters from another university or a Slippery Rock University student who changes his/her major to HCAM:
    - i. With 40 or more earned credits will have a one-semester extension before his/her Major GPA are reviewed to determine if he/she has achieved "Sufficient Academic Performance".
    - ii. With less than 40 earned credits will follow Policy I. A above.
  - c. An incoming FYRST student earning college credits prior to entering SRU may reach 40 credits before completing two semesters at SRU. In this case, the review to determine "Sufficient Academic Performance" will not begin until the student has completed two semesters as a student in the HCAM major.
2. Policy for earning acceptable grades in Required 400 Level Courses
    - a. A student must earn a grade of "C" or better in Required 400 Level Courses.
    - b. A student will not be permitted to begin an internship unless he/she has "Sufficient Academic Performance" and he/she has earned a grade of "C" or better in Required 400 Level Courses.
    - c. A student must also earn a grade of "C" or better in HCAM 305, HCAM 400, HCAM 410<sup>3</sup>, HCAM 430 and MIS 403 before he/she is allowed to take HCAM 499<sup>4</sup> and HCAM 450<sup>4</sup>.
  3. Policy for changing to the HCAM major
    - a. A Slippery Rock University student wishing to change his/her major to Health Care Administration and Management must have an overall GPA of 2.00.
  4. Additional costs associated with the HCAM major
    - a. A student in the HCAM major is required to maintain a current Student Professional Liability Insurance and meet any immunization or physical requirements set forth by an internship employer while enrolled in HCAM 450 at his/her own cost.

<sup>1</sup> "Sufficient Academic Performance" is defined as having a Major GPA of 2.50 or higher. The Major GPA is comprised of Required Basic Courses, Required 300 and 400 Level HCAM Courses. Please see My Rock Audit for specific courses.

<sup>2</sup> "One semester probation" is defined as the initial semester after which "Sufficient Academic Performance" was not achieved and the first occurring summer.

<sup>3</sup> If taken – HCAM 410 is an elective for non 3+2 PA or 3+3 PT majors

<sup>4</sup> If required – not required for 3+2 PA or 3+3 PT majors

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

1. Policy for earning acceptable grades in the HCAM program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required

Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).

- b. A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - c. The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
- a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.
3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
4. Additional costs associated with the HCAM major:
- a. Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
  - b. A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.
  - c. HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for students entering the major Fall 2017 and after*

1. Policy for achieving and maintaining "Sufficient Academic Performance"<sup>1</sup>
  - a. At the end of the semester in which a student has earned 40 credits (and every semester thereafter), the Major and Overall GPA will be reviewed:
    - i. A student must earn a 2.50 Major GPA to achieve "Sufficient Academic Performance" and continue in the HCAM major.
    - ii. A student earning below a 2.50 in the Major GPA at any time after earning 40 credits will be placed on a "one semester probation."<sup>2</sup> He/she must increase his/her GPA to 2.50 or higher by the end of the "one semester probation" or be **permanently** removed from the HCAM major. The student will be notified by email of his/her status following the "one semester probation." A student who has not achieved "Sufficient Academic Performance" will have his/her major changed to Exploratory.
    - iii. A student can be placed on a "one semester probation" a maximum of two times as an HCAM major. He/she will be **permanently** removed from the HCAM major if his/her Major GPA drops below a 2.50 a third time.
    - iv. A student on a "one semester probation" may not enroll in required 400 Level Courses unless he/she is repeating the course(s).
  - b. A transfer student who enters from another university or a Slippery Rock University student who changes his/her major to HCAM:

- i. With 40 or more earned credits will have a one-semester extension before his/her Major GPA are reviewed to determine if he/she has achieved "Sufficient Academic Performance".
  - ii. With less than 40 earned credits will follow Policy I. A above.
- c. An incoming FYRST student earning college credits prior to entering SRU may reach 40 credits before completing two semesters at SRU. In this case, the review to determine "Sufficient Academic Performance" will not begin until the student has completed two semesters as a student in the HCAM major.
2. Policy for earning acceptable grades in Required 400 Level Courses
  - a. A student must earn a grade of "C" or better in Required 400 Level Courses.
  - b. A student will not be permitted to begin an internship unless he/she has "Sufficient Academic Performance" and he/she has earned a grade of "C" or better in Required 400 Level Courses.
  - c. A student must also earn a grade of "C" or better in HCAM 305, HCAM 400, HCAM 410<sup>3</sup>, HCAM 430 and MIS 403 before he/she is allowed to take HCAM 499<sup>4</sup> and HCAM 450<sup>4</sup>.
3. Policy for changing to the HCAM major
  - a. A Slippery Rock University student wishing to change his/her major to Health Care Administration and Management must have an overall GPA of 2.00.
4. Additional costs associated with the HCAM major
  - a. A student in the HCAM major is required to maintain a current Student Professional Liability Insurance and meet any immunization or physical requirements set forth by an internship employer while enrolled in HCAM 450 at his/her own cost.

<sup>1</sup> "Sufficient Academic Performance" is defined as having a Major GPA of 2.50 or higher. The Major GPA is comprised of Required Basic Courses, Required 300 and 400 Level HCAM Courses. Please see My Rock Audit for specific courses.

<sup>2</sup> "One semester probation" is defined as the initial semester after which "Sufficient Academic Performance" was not achieved and the first occurring summer.

<sup>3</sup> If taken – HCAM 410 is an elective for non 3+2 PA or 3+3 PT majors

<sup>4</sup> If required – not required for 3+2 PA or 3+3 PT majors

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

1. Policy for earning acceptable grades in the HCAM program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).
  - b. A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - c. The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
4. Additional costs associated with the HCAM major:
  - a. Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
  - b. A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.
  - c. HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for students entering the major Fall 2017 and after*

1. Policy for achieving and maintaining "Sufficient Academic Performance"<sup>1</sup>
  - a. At the end of the semester in which a student has earned 40 credits (and every semester thereafter), the Major and Overall GPA will be reviewed:
    - i. A student must earn a 2.50 Major GPA to achieve "Sufficient Academic Performance" and continue in the HCAM major.
    - ii. A student earning below a 2.50 in the Major GPA at any time after earning 40 credits will be placed on a "one semester probation."<sup>2</sup> He/she must increase his/her GPA to 2.50 or higher by the end of the "one semester probation" or be **permanently** removed from the HCAM major. The student will be notified by email of his/her status following the "one semester probation." A student who has not achieved "Sufficient Academic Performance" will have his/her major changed to Exploratory.
    - iii. A student can be placed on a "one semester probation" a maximum of two times as an HCAM major. He/she will be **permanently** removed from the HCAM major if his/her Major GPA drops below a 2.50 a third time.
    - iv. A student on a "one semester probation" may not enroll in required 400 Level Courses unless he/she is repeating the course(s).
  - b. A transfer student who enters from another university or a Slippery Rock University student who changes his/her major to HCAM:

- i. With 40 or more earned credits will have a one-semester extension before his/her Major GPA are reviewed to determine if he/she has achieved "Sufficient Academic Performance".
  - ii. With less than 40 earned credits will follow Policy I. A above.
- c. An incoming FYRST student earning college credits prior to entering SRU may reach 40 credits before completing two semesters at SRU. In this case, the review to determine "Sufficient Academic Performance" will not begin until the student has completed two semesters as a student in the HCAM major.
2. Policy for earning acceptable grades in Required 400 Level Courses
  - a. A student must earn a grade of "C" or better in Required 400 Level Courses.
  - b. A student will not be permitted to begin an internship unless he/she has "Sufficient Academic Performance" and he/she has earned a grade of "C" or better in Required 400 Level Courses.
  - c. A student must also earn a grade of "C" or better in HCAM 305, HCAM 400, HCAM 410<sup>3</sup>, HCAM 430 and MIS 403 before he/she is allowed to take HCAM 499<sup>4</sup> and HCAM 450<sup>4</sup>.
3. Policy for changing to the HCAM major
  - a. A Slippery Rock University student wishing to change his/her major to Health Care Administration and Management must have an overall GPA of 2.00.
4. Additional costs associated with the HCAM major
  - a. A student in the HCAM major is required to maintain a current Student Professional Liability Insurance and meet any immunization or physical requirements set forth by an internship employer while enrolled in HCAM 450 at his/her own cost.

<sup>1</sup> "Sufficient Academic Performance" is defined as having a Major GPA of 2.50 or higher. The Major GPA is comprised of Required Basic Courses, Required 300 and 400 Level HCAM Courses. Please see My Rock Audit for specific courses.

<sup>2</sup> "One semester probation" is defined as the initial semester after which "Sufficient Academic Performance" was not achieved and the first occurring summer.

<sup>3</sup> If taken – HCAM 410 is an elective for non 3+2 PA or 3+3 PT majors

<sup>4</sup> If required – not required for 3+2 PA or 3+3 PT majors

\* All undergraduate degree programs require a minimum of 120 credits. Some courses meet multiple requirements, but are only counted once toward the 120 credit total required to graduate. However, because this is a pre-professional program, credits taken during the 1<sup>st</sup> year of the graduate program are applied toward the undergraduate credit hours to meet the 120 credits required for your undergraduate degree.

If accepted, your first year in the SRU PA program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Physician Assistant (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU PA program and apply to the SRU PA program in your senior year.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

- Policy for earning acceptable grades in the HCAM program:
  - A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).
  - A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - If a student does not earn a "C" or better, they will be required to:
    - Retake the course
    - They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - Students will need to meet with their Academic Advisor and change their schedule accordingly
- SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
  - Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit

by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

- Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
- Additional costs associated with the HCAM major:
  - Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
  - A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.
  - HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

1. Policy for earning acceptable grades in the HCAM program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).
  - b. A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - c. The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used

in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
4. Additional costs associated with the HCAM major:
  - a. Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
  - b. A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.
  - c. HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

1. Policy for earning acceptable grades in the HCAM program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).
  - b. A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - c. The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.
3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
4. Additional costs associated with the HCAM major:
  - a. Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
  - b. A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in

HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.

- c. HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

1. Policy for earning acceptable grades in the HCAM program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).
  - b. A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - c. The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an

earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
4. Additional costs associated with the HCAM major:
  - a. Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
  - b. A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.
  - c. HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Academic Policies for Students in the Health Care Administration and Management (HCAM) Major

*Effective for all Health Care Administration and Management (HCAM) Majors beginning Fall 2021*

1. Policy for earning acceptable grades in the HCAM program:
  - a. A student must earn a grade of "C" or better in ALL Required Basic Courses (HCAM 230, HCAM 265, HCAM 275) and Required Upper-Level Courses (HCAM 305, HCAM 360, HCAM 400, HCAM 430, HCAM 450, HCAM 480, and HCAM 499).
  - b. A student must earn a grade of "C" or better in ALL non-HCAM major Requirements (ACCT 209, ACCT 340, ECON 312, HLTH 210, and MIS 210, STAT 152 or ECON 219/MGMT 219).
  - c. The HCAM curriculum is structured with pre-requisites. A student must earn a "C" or better in the pre-requisite course to be able to take the next course. See course catalog for pre-requisites.
  - d. If a student does not earn a "C" or better, they will be required to:
    - i. Retake the course
    - ii. They will be dropped from any course(s) in the following semester that requires a "C" or better as a pre-requisite (see course catalog for pre-requisites)
    - iii. Students will need to meet with their Academic Advisor and change their schedule accordingly
2. SRU has a *Repeat of Courses Policy* as follows and it can be found in the course catalog: **Repeat of Courses < Slippery Rock University (sru.edu)**
  - a. Students may attempt to improve their grade point average by repeating courses. The most recent grade earned is used in calculating the GPA even if the earlier grade was higher. If a passed course is repeated and failed (or NC), the student will lose both the grade points and credits previously earned. However, all grades will appear on the transcript. Courses in which a grade was earned at Slippery Rock University may not be repeated at any institution. A grade of W (withdraw) does not count as an earned grade. Students who repeat a course must do so using the same grading system under which they originally took the course. For example, a student who originally took a course graded A-F may not repeat the course on a P/NC, P/F, or audit basis. Students may not repeat a course by using any Credit by Examination program if they originally took the course on a graded A-F, P/NC, P/F, or audit basis. Undergraduate students will be limited to a maximum total of six repeats during their entire SRU academic career, excluding withdrawal grades. In addition, repeats of a single course will be limited to a maximum of two. This means, no single course may be taken more than three times (excluding withdrawal grades). The course repeat policy for post-baccalaureate students is the same as the undergraduate student policy.

3. Once the student has exceeded the *SRU Repeat of Courses Policy*, the student will have their major changed to Exploratory and HCAM Major courses will be removed from their schedule.
4. Additional costs associated with the HCAM major:
  - a. Lab fees will be collected for classes with a lab component. This fee enhances the University's ability to offer a high-quality program.
  - b. A student in the HCAM major may be required to purchase Student Professional Liability Insurance while enrolled in HCAM 450 at their own cost. More information will be provided to students in the upper level HCAM courses.
  - c. HCAM 450 Internship: Certain sites may require one or more of the following: physical examinations, record of immunizations, TB test, criminal background checks, drug testing, specific certifications for CPR/AED (e.g., American Heart Association), and HIPAA training. These may require additional costs for students. Fulfilling these requirements and obtaining appropriate documentation is the responsibility of the student.

## Psychology, Bachelor of Science (BS) - Concentration in Neuroscience

Neuroscience breakthroughs are responsible for advancements in memory, sleep science, understanding mental health, developing mental health treatments and so much more.

Neuroscience is an interdisciplinary degree with a wide range of career opportunities. Neuroscience graduates aren't confined to one career path, which makes for an exciting postgraduate experience. The Neuroscience concentration prepares students for graduate study in Neuroscience, medical school, careers in the pharmaceutical, biotech, and other industries, and much more.

At SRU, there are countless opportunities to network and get involved with other students on campus. Our Psychology Club allows you to meet faculty, students, and professionals in the field. We also feature our own chapter of Nu Rho Psi, an honor society for Neuroscience majors.

## Psychology, Bachelor of Science (BS) / Pre-Counseling (SRU) (3+3)

The Psychology program offers a Pre-Counseling 3+3 option for students interested in a career in Mental Health Counseling. Undergraduate students work with their academic adviser to complete courses needed to fulfill the requirements for both a Bachelor of Science degree and the entrance requirements for either of two Master of Arts programs: Clinical Mental Health Counseling or Student Affairs in Higher Education with College Counseling. Graduate study in both of these programs prepares students for licensure as a Professional Counselor. The Psychology program prepares students for graduate study by providing a strong basis in the biopsychosocial processes of human functioning. The first year of the Master of Arts program meets the requirements for the fourth year of the Bachelor of Science degree.

### Psychology (BS) - 3+3 Pre-Counseling

3+3 Pre-Counseling program requirements:

- Students are required to maintain minimum Overall and Psychology GPAs of 3.0 in order to retain the major in Psychology. Students are required to earn a grade of C or higher in Introduction to Psychology (PSYC 105) in order to take all other Psychology courses. Students are required to earn a grade of C or higher in Psychological Science I: Research Methods (PSYC 231) and Psychological Science II: Statistical Applications (PSYC 232) in order to progress in the program. Each course can only be repeated once.

### Program Learning Outcomes

- Theory and Content of Psychology:** Students should be familiar with the major theoretical approaches, findings, and historical trends in psychology.
- Methodology:** Students should understand and be able to use major research methods in psychology, including design, data analysis, and interpretation.
- Critical Thinking, Logic, and Problem-Solving:** Students should use and respect skeptical inquiry, critical thinking, and the scientific approach to understanding behavior.

- Information Competence, Technology, and Computers:** Students should demonstrate information competence and the ability to use computers and other technology for multiple purposes.
- Communication Skills:** Students should be able to express themselves effectively in written and oral communication.
- Application of Psychology:** Students should have an understanding of applications of psychology to personal, social, and organizational issues.

\* All undergraduate degree programs require a minimum of 120 credits. Some courses meet multiple requirements, but are only counted once toward the 120 credit total required to graduate. However, because this is a pre-professional program, credits taken during the 1<sup>st</sup> year of the graduate program are applied toward the undergraduate credit hours to meet the 120 credits required for your undergraduate degree.

If accepted, your first year in the SRU PA program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Physician Assistant (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU PA program and apply to the SRU PA program in your senior year.

## Pre-Physician Assistant SRU 3+2 Requirements

If any of these requirements are not met, the 3+2 designation will be removed from the student's record:

1. A 3.25 or higher overall GPA must be maintained by the student.
2. The student can only be enrolled in the Pre-Physician Assistant SRU 3+2 program for a maximum of three (3) years, full-time continuous enrollment (fall/spring).

### Provision

Should a Pre-Physician Assistant SRU 3+2 student be unsuccessful in completing the 1<sup>st</sup> two semesters (summer or fall) of the Physician Assistant Program and wants to complete the original undergraduate degree, it is solely up to the discretion of the undergraduate program Department Chair to determine which, if any, Physician Assistant courses will count toward the completion of his/her undergraduate degree. In addition, students must complete any unfulfilled requirements of their undergraduate major. Students may still apply to the Physician Assistant Studies Program with an earned Bachelor's degree.

### Important Curriculum Guide Notes

This Curriculum Guide is provided to help SRU students and prospective students better understand their intended major curriculum. Enrolled SRU students should note that the My Rock Audit may place already-earned and/or in progress courses in different, yet valid, curriculum categories. Enrolled SRU students should use the My Rock Audit Report and materials and information provided by their faculty advisers to ensure accurate progress towards degree completion. *The information on this guide is current as of the date listed. ## Gerontology, Minor

To access Minor Requirements, please view the Curriculum Guide tab.

**Coordinator**

Adelle Williams

Gerontology is an interdisciplinary specialization that focuses on aging and the aging process. This specialization is designed to enhance the understanding of aging and enrich interactions among generations. It is a valuable adjunct for those preparing to work directly with, or indirectly for, older persons. Employment opportunities for students who have academic preparation in gerontology are available in community agencies, long term care facilities, hospitals, assisted living facilities, hospices, retirement villages, senior centers, and mental health facilities among others. The program is open to students in any major.

Students conduct an internship in an organization which provides services to older adults and students actively participate in a service learning project. Opportunities to participate in campus and community activities are available.

Sigma Phi Omega, the national gerontology honorary society recognized students' exemplary scholastic accomplishments in the field of aging. Undergraduate and graduate students are eligible to apply. The Anne Bicknell Scholarship is offered (based upon available funding) and an application, essay and references are required.

## ADVISEMENT

Students planning to complete the program in gerontology will declare a major within a department. Major responsibility for advisement will rest within this department. However, the coordinator will assist students in the selection of gerontology courses and internship sites to fulfill the requirements for the minor in gerontology. Students must assume responsibility for fulfilling all requirements for graduation.

### MINOR IN GERONTOLOGY (98A)

This program is effective as of Summer 2013.

Revised 10.28.2021

## Health Science - Public Health, Bachelor of Science (BS)

Slippery Rock University's Public Health Program is well known for the quality of its graduates. Public Health majors are successful at continuing on into graduate programs in the field of health science and finding jobs in a variety of health-related professions.

Public Health is a discipline in which professionals deliver health information and health programs for health promotion and disease prevention to populations. Graduates of this program have a broad based background in the field of public health that prepares them for graduate study in a health-related field along with entry level positions in such areas as health promotion, health education, and health data management.

The Public Health program is very dynamic. Coursework involves service learning experiences within a wide variety of settings. Public Health faculty members conduct on-going research projects in which advanced level students can become involved. Students help professors analyze data and prepare professional conference presentations, which the students actually present under the mentorship of faculty members. Other student activities include the Pennsylvania Public Health Association Collegiate Chapter and the peer health education program at Slippery Rock University.

Students are encouraged to take additional coursework or minors in complementary areas of study such as gerontology, information systems, or psychology. The program culminates in a 12-credit internship, which provides hands-on experiences and further insight into career opportunities in public health. Students may select their own internship site or may choose from a database of previously identified sites. Often it is through this internship experience that students discover the branch of public health in which they would like to practice. Students are required to select a major project for their internship experience that demonstrates mastery of entry-level professional skills. Frequently interns remain at their sites as employees following their internships.

Recent graduates have entered positions in state and local health departments, community-based wellness programs, voluntary health agencies such as the American Heart Association or American Cancer Society, federal government health programs, and health insurance companies. Graduates also enter graduate programs in a variety of areas. Many continue their studies to become physician assistants, occupational or physical therapists, nutritionists, and nurses. Others choose to earn a graduate degree in public health.

Upon completion of the Public Health program, students are eligible to sit for the Certified Health Education Specialist (CHES) examination, which is a national credentialing examination for people who wish to practice health education in a community setting. Today, the CHES credential is often preferred or even required for many community health education positions. Graduates who complete our Public Health program successfully pass the CHES examination at a rate well above the national average.

## PROGRAM LEARNING OUTCOMES

- **Effective Professional Communication:** Communicate with clients in an individual or group setting and with health professionals in a variety of health settings using a combination of communication skills for a clear exchange of ideas and information, listening and comprehending the viewpoints of others, effectively presenting information in oral and written formats and integrating media/technology.
- **Professional Competency:** Use reasoned judgment drawing upon a broad knowledge base from social, behavioral and natural science, education and health to assess, plan, implement, evaluate and coordinate health promotion for individuals and communities.
- **Professional Ethics:** Apply high ethical standards to public health practice with a sensitivity to multicultural traditions, legal issues, and adherence to a code of ethics of professional health organizations.
- **Continual Professional and Personal Development:** Continue personal and professional development in holistic health, including the components of physical, emotional, spiritual, social, environmental and vocational health, through continuing education, advanced study, and participation in professional health organizations

### Pre-Occupational Therapy SRU 3+3

If any of these requirements are not met, the 3+3 designation will be removed from the student's record:

1. A 3.0 or higher overall GPA must be maintained by the student.
2. The student can only be enrolled in the Pre-Occupational Therapy SRU 3+3 program for a maximum of three (3) years, full-time continuous enrollment (fall/spring).

### Provision

Should a Pre-Occupational Therapy SRU 3+3 student be unsuccessful in completing the 1<sup>st</sup> two semesters (summer or fall) of the Occupational Therapy Program and wants to complete the original undergraduate degree, it is solely up to the discretion of the undergraduate program Department Chair to determine which, if any, Occupational Therapy courses will count toward the completion of his/her undergraduate degree. In addition, students must complete any unfulfilled requirements of their undergraduate major. Students may still apply to the Doctor of Occupational Therapy Program with an earned Bachelor's degree.

### Important Curriculum Guide Notes

This Curriculum Guide is provided to help SRU students and prospective students better understand their intended major curriculum. Enrolled SRU students should note that the My Rock Audit may place already-earned and/or in progress courses in different, yet valid, curriculum categories. Enrolled SRU students should use the My Rock Audit Report and materials and information provided by their faculty advisers to ensure accurate progress towards degree completion. *The information on this guide is current as of the date listed. # Health Science - Public Health, Bachelor of Science (BS) / Pre- Physical Therapy (SRU) (3+3)

## PUBLIC HEALTH PROGRAM LEARNING OUTCOMES

- **Effective Professional Communication:** Communicate with clients in an individual or group setting and with health professionals in a variety of health settings using a combination of communication skills for a clear exchange of ideas and information, listening and comprehending the viewpoints of others, effectively presenting information in oral and written formats and integrating media/technology.
- **Professional Competency:** Use reasoned judgment drawing upon a broad knowledge base from social, behavioral and natural science, education and health to assess, plan, implement, evaluate and coordinate health promotion for individuals and communities.
- **Professional Ethics:** Apply high ethical standards to public health practice with a sensitivity to multicultural traditions, legal issues, and adherence to a code of ethics of professional health organizations.
- **Continual Professional and Personal Development:** Continue personal and professional development in holistic health, including the components of physical, emotional, spiritual, social, environmental and vocational health, through continuing education, advanced study, and participation in professional health organizations

## What are your options?

**Pre-Physical Therapy SRU 3+3:** Earn a Doctor of Physical Therapy in six years rather than seven. In the first three years, you complete your major courses and pre-requisites for the SRU DPT program. During your third undergraduate year, you apply for admission into the SRU DPT program. If accepted, your first year in the SRU DPT program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Physical Therapy (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU DPT program and apply to the SRU DPT program in your senior year.

## What are your options?

**Pre-Physician Assistant SRU 3+2:** Earn a Master of Science degree in Physician Assistant Studies in five years rather than six. In the first three years, you complete your major courses and pre-requisites for the SRU PA program. At the end of your second year, you apply for admission into the SRU PA program. If accepted, your first year in the SRU PA program meets the remaining requirements for your undergraduate degree. If not accepted, you continue to complete your undergraduate degree and can reapply to the program. The accelerated option is for incoming freshmen only.

**Pre-Physician Assistant (SRU Traditional):** Complete the requirements for your major and the pre-requisites for the SRU PA program and apply to the SRU PA program in your senior year.

## Social Work, Bachelor of Science (BS)

**Program Director:** Dr. Tami Micsky

Social work is a profession that applies knowledge about people and society to help persons, groups, or communities meet a diversity of needs, solve a wide range of problems, promote social justice, and assist people in becoming empowered. The baccalaureate program in social work prepares students for generalist social work practice. As beginning professional social workers, graduates typically work in the areas of child welfare, juvenile and adult corrections, public assistance, health and mental health, aging domestic violence, and chemical dependency, among others.

The undergraduate program in social work awards a Bachelor of Science degree in Social Work and is accredited by the Council on Social Work Education, the national accrediting agency for social work. Accreditation standards require a solid core of courses on social welfare issues and policies, social work practice skills, basic social science research methods, and a broad background in the liberal arts with special emphasis on psychology, biology, economics, politics, sociology, organization, and diverse ethnic groups. In fulfilling the academic requirements for social work, students must also uphold the values of the profession of Social Work as expressed in the National Association of Social Work's Code of Ethics.

While Pennsylvania requires a master's degree to become a licensed social worker, some states license social workers holding a bachelor's degree. Since requirements vary by state, please check with the licensing board in the state you intend to practice.

## Program Learning Outcomes

The six goals of the Social Work Program are as follows:

1. To graduate students with a baccalaureate (B.S.) degree in Social Work who are competent to begin generalist social work practice.
2. To graduate students who are well prepared to enter graduate schools of Social Work, either directly after receiving the undergraduate degree, or after a period of practice.
3. To contribute to the intellectual, ethical, and emotional development of our students in order to enhance their awareness and involvement as citizens in the broad social welfare issues of our times.
4. To sensitize students to the human condition in order that they might develop a respect for human dignity, diversity, and freedom.

- For students who are uncertain about a career choice, to provide a clear and honest introduction to the responsibilities and rewards of a Social Work career, so that they can make informed career choices.
- To help meet the human resource needs for baccalaureate level social workers in the diverse mix of rural, small town, and metropolitan areas from which our students come and to which many wish to return.

## The Rock Difference

Students who major in art will develop the capacity to make tangible their aesthetic responses to experience. By increasing awareness of themselves, their environment and their culture, and by learning to think and act creatively, students prepare themselves for a life enriched through art. The broadly based Bachelor of Arts program with a concentration in art provides a diversified background suitable to generalist applications and an excellent foundation for further study in various disciplines. The Bachelor of Fine Arts degree program is for students interested in art as a profession. It is an intensive program of study aimed at developing a foundation of attitudes, traits and abilities with which to begin a lifetime as an artist. Emphasis is placed on students' personal experiences as the source of artistic motivation. The broadly based rock studies curriculum provides students with a diversified background, which, in concert with their professional training, should lead to a successful career in art and applied vocations.

*"The encouragement and support I received from the faculty and students in the Art Department at Slippery Rock University enabled me to gain the confidence to make it as a professional artist. The instruction I received provided both a practical and philosophic foundation that continues to contribute to my success as artist and teacher."*

**John Greco**  
BA '76  
Professor of Art  
Santa Monica College

*"Being creative and skilled are the keys to surviving in today's fast paced environment. The experience in the Art Department at Slippery Rock University prepared me to succeed in graduate school and in my professional career where constant change challenges all assumptions."*

**Dalton Good**  
BFA '81  
Director of Publications  
Point Park College

The Art Department sponsors regional and national travel opportunities to visit galleries and museums in cities such as Boston, Philadelphia, Toronto, New York, Washington, D.C. or Chicago each semester. Faculty organize day trips to exhibits in Cleveland and Pittsburgh several times each term. The department has developed exchange programs with excellent art schools in Europe and Costa Rica to provide students with the opportunity for an international experience. Students have the opportunity to spend a semester studying and traveling in Europe or Costa Rica, experiencing different cultures. More than 100 students have participated in these exchanges.

Art faculty periodically take students to various professional society meetings such as the National Society for Education in Ceramic Arts, International Sculpture Society and Southern Graphics Society annual meetings. At these meetings students meet and get to know professionals in their field. They have an opportunity to attend lectures and demonstrations on the latest techniques being developed.

Each term, in our master studio program, the Art Department has visiting artists come to campus for workshops, lectures and critiques of student work. This program enables the student to know and experience the broadest possibilities in their own work.

Each year, the final exhibition in the campus gallery is devoted to an exhibit of student art. For this show, an invited juror judges the show, awarding prizes and scholarships for the coming year.

Students may elect to do an internship in their junior or senior year. Internships allow the student to sharpen skills learned in the classroom in a professional, working atmosphere. Students complete internships in various museums and galleries, and in photography, architectural, ceramic and graphic design studios. While interning, students gain a working knowledge in their chosen field, make contacts with professional artists, and learn to use the ideas and techniques practiced in the classroom.

The Art Society, a student run Art organization, coordinates field trips to special art exhibitions, raises monies for entry fees to local art exhibitions and sponsors exhibitions of their work to show in local galleries.

Students will explore and analyze influential works of art through the lens of materials, styles, and processes as a way to gain an understanding of the arts as a method of communication and expression. From ancient to contemporary art history we examine artwork in the context of social, religious, historical, cultural influences in which they existed, and will draw connections between artistic movements and how they are common to all fine and performing arts. Through building a context for understanding, art is made meaningful to the student's experience. Studying and experiencing the arts, including dance, music, theatre, and the visual arts, develops creative and aesthetic abilities. The arts introduce students not only to artists and their creations, but also to history, cultures, values, technique, imagination, creativity, and issues relevant to society. Students will gain an understanding of the creative process and how to analyze and interpret message and meaning in works of art. While the arts can bring us pleasure, they can also serve to enlighten and illuminate critical issues, lead to personal discoveries, and foster innovation in all fields. Students will learn to think critically about the arts, develop an appreciation for artistic creations, and by viewing live performances and exhibitions, become engaged audience members. Arts inquiry courses use and develop the analytic and interpretive modes of inquiry needed to understand and explore both tangible and abstract artistic works and the cultures in which they exist. In arts inquiry courses, students confront a variety of cultural and artistic expressions in order to gain an understanding of the human condition, and ultimately express their relationship to artistic work, meaning, and the creative process. Attendance at arts events will be required during this course and may require a fee.

ART - BFA (5305)

Concentration in Graphic Design (GDES)

Revised: 05.13.2022

## Art, Bachelor of Fine Arts (BFA) - Concentration in K-12 Art Teacher Preparation

Students in the BFA Art program will have the option to elect this concentration and take most of the required coursework as undergraduates at SRU to prepare for certification through Carlow University. BFA Art graduates with this concentration will enroll at Carlow University for a semester of student teaching, and will obtain K-12 Art Teacher Certification through Carlow University.

This concentration can be completed within the current curricular structure of the BFA degree, and with the addition of six College of Education classes. Students are required to take one class (at any level) in most studio art disciplines. See adviser.

This concentration includes all coursework and requirements specified by the Pennsylvania Department of Education, with student teaching and K-12 Art Teacher certification obtained through Carlow University.

Program Learning Outcomes

- **Critical Thinking:** Art majors will locate, analyze and synthesize art historical information and context within their own work.
- **Degree Program Writing Competency:** Students will be able to effectively communicate in writing for purposes of the discipline.
- **Direction:** Art majors develop a personal direction through their choice of medium, idea and/or style. Students will demonstrate intellectual and artistic curiosity while committing to improvement.
- **Professional Proficiency:** Art majors will perceive, discuss and demonstrate professional proficiency upon graduation by applying their knowledge and skills of fine art.
- **Technique:** Art majors will demonstrate technical aptitude. The department assesses the technical quality of student production. Each medium varies with its technical demands.

Dr. Cindy LaCom	110 Patterson Hall	724-738-2359

Department Web Site URL (<https://www.sru.edu/academics/colleges-and-departments/cla/departments/gender-studies/>)

Gender Studies considers how gender, along with race, class, sexualities, disability and ethnicity, shape access to and exclusion from power in an interdisciplinary context.

The Gender Studies Program takes an interdisciplinary approach to teaching and learning, with courses in numerous departments: English, EGEO, Psychology, History, and Political Science, among others. Relevant to all majors, a minor in Gender Studies prepares students both to interact in a diverse and increasingly global professional world and to understand how our embodied experiences, while personal and individual, are also culturally shaped. In Gender Studies courses, students analyze power structures, gender identities, and culture to promote social change.

**Applied History, Certificate**

The job market in public history and historical tourism is growing rapidly. This is most easily seen in the emergence of specialized museums and living history centers, but also as a growing component of governmental services, including the national parks service and census bureau, local and state public space development and, most recently, through interactive web and app development. These occupations demand individuals who have an understanding of how to develop and apply historical knowledge and data in new and innovative ways. This certificate is specifically designed to provide students a foundation in the interaction between history and public consumption that will improve opportunities for employment.
