# MECHANICAL ENGINEERING, BACHELOR OF SCIENCE (BS)

# **Program Learning Outcomes**

Upon graduation, students will have:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- · An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Major GPA: 2.00 or higher Overall GPA: 2.00 or higher

### Summary\*

| Code   | Title                  | Hours |
|--|------------------------|-------|
| Rock Studies                                       | s 2 Requirements       | 41    |
| Other Basic F                                      | Requirements           | 0-3   |
| Major/Conce  | entration Requirements | 84    |
| Natural Science and Math College-Wide Requirements |                        | 12    |
| Elective   |                        | 3     |

<sup>\*</sup> All undergraduate degree programs require a minimum of 120 credits. Some courses meet multiple requirements, but are only counted once toward the 120 credit total required to graduate.

Course offered in multiple subjects; cannot take course in first major subject.

#### **Basic Math Requirement**

Check with your adviser or a current degree audit report to see if you have been exempted from this course. The credit earned in this course will not be counted toward the 120 credit hour minimum needed to earn a degree.

| Code           | Title                              | Hours |
|----------------|------------------------------------|-------|
| Complete one o | f the following:                   | 0-3   |
| Meet required  | d minimum SAT or ACT math score OR |       |
| ESAP 110       | Beginning Algebra                  |       |
| Total Hours    |                                    | 0-3   |

#### **DIVERSITY, EQUITY, AND INCLUSION REQUIREMENT**

Students must take and pass a course with the Diversity, Equity, and Inclusion (DEI) designation prior to graduation. Students can meet this requirement by taking any DEI - designated course in any program at any time during their undergraduate career.

#### **Major/Concentration Requirements**

- · 42 major credits must be taken at SRU or PASSHE
- 42 major credits must be taken at the 300 level or above

Course can be counted as a Rock Studies 2 Requirement, but earns credit only once toward your 120-credits total.

#### **Important Curriculum Guide Notes**

This Curriculum Guide is provided to help SRU students and prospective students better understand their intended major curriculum. Enrolled SRU students should note that the My Rock Audit may place already-earned and/or in progress courses in different, yet valid, curriculum categories. Enrolled SRU students should use the My Rock Audit Report and materials and information provided by their faculty advisers to ensure accurate progress towards degree completion. The information on this guide is current as of the date listed. Students are responsible for curriculum requirements at the time of enrollment at the University.

PASSHE - Pennsylvania State System of Higher Education Institutions

|          | Total Hours** | 128 |

Course offered in multiple subjects; cannot take course in first major subject.

\*\* This document is meant to serve as a guide. Some planners may show more than 120 credits because faculty have created flexibility in choosing courses. However, only 120 credits are required to obtain a degree. Please consult with your academic adviser and refer to your curriculum guide prior to registering for courses. This plan should be reviewed, and verified, by you and your academic adviser at least once each academic year.

Major. 6184

Revised: 08.01.2023

<sup>\*</sup> Students are encouraged to take ESAP 101 as a Free Elective.
