

COMPUTING, BACHELOR OF SCIENCE (BS) - CONCENTRATION IN COMPUTING ANALYTICS

Program Learning Outcomes

- **Problem Solving and Critical Thinking:** Solve Problems by creating client/server applications that are efficient, user-friendly, and portable
 - Formulate project requirements and alternative solutions appropriate to the computing problems
 - Integrate design and implementation principles to develop effective applications
 - Perform critical analyses of the impacts of decisions based on mathematics
 - Implement computing solutions that consist of system and application software written in various programming languages
 - Create efficient, user-friendly applications appropriate to the computing problems
- **Communication and Interpersonal Skills:** Use written, oral and electronic methods for effective communication
 - Document all aspects of a system precisely and clearly
 - Use written, oral, and electronic communication to convey technical information effectively
 - Devise effective user interfaces based on the application
 - Work cooperatively in teams and with others
- **Ethical and Professional Responsibilities:** Discern and articulate the impact of technologies on society
 - Determine the economic and organizational effects of information technology on global society
 - Recognize important legal issues and demonstrate appropriate social responsibilities in information technology
 - Demonstrate an awareness of the codes of professional ethics in the information technology industry
 - Plan for and ensure the security, privacy, and integrity of data
 - Recognize the need for continuing professional development
