- ⁴ **Senior Year- If not accepted into SRU DPT:** If you choose to pursue Exercise Science 3+3 and are not accepted into SRU DPT Graduate Program, then EXSC 450: Exercise Science Internship (12 credits) is required to complete a first major of Exercise Science. Please refer to the Exercise Science Curriculum Guide.
- ⁵ Students must complete this 12 credit requirement by registering for two sections of this 6-cr hour course in the same semester
- * Students are encouraged to take ESAP 101 as a Free Elective.

Students must meet all Exercise Science 3+3 major requirements, SRU Doctorate of Physical Therapy (DPT) Program prerequisites, and Rock Studies 2 requirements to apply.

Senior Year- If accepted into the SRU DPT: The first two semesters will count as the 4th year of the Exercise Science program. Upon successful completion of the first two semesters of the SRU DPT Graduate Program, students will graduate with a BS in Exercise Science. Should an Exercise Science 3+3 student be unsuccessful in completing the first two semesters of the SRU DPT Graduate Program and wants to complete their original undergraduate degree, it is solely up to the discretion of

their undergraduate program Department Chair to determine which, if any Physical Therapy courses will count toward the completion of their undergraduate degree. In addition, students must complete EXSC 450: Exercise Science Internship (12 credits).

*** This document is meant to serve as a guide. Some planners may show more than 120 credits because faculty have created flexibility in choosing courses. However, only 120 credits are required to obtain a degree. Please consult with your academic adviser and refer to your curriculum guide prior to registering for courses. This plan should be reviewed, and verified, by you and your academic adviser at least once each academic year.*
