

# PRE-NURSING, BACHELOR OF SCIENCE IN NURSING (BSN) (BC3)

---

## PROGRAM LEARNING OUTCOMES

1. **Clinical Proficiency** - Provide safe, high-quality, culturally appropriate and equitable care to individuals, families, and communities in a variety of settings, reflecting the integration of theoretical knowledge and practical experience. (UO 2, 6, 9)
2. **Professionalism** - Demonstrate professional and ethical behavior in the delivery of nursing care. (UO 5, 8)
3. **Leadership** - Demonstrate effective leadership capabilities that facilitate achievement of improved patient outcomes and shared system-based goals. (UO 7, 10)
4. **Data and Technology** - Utilizes data and advanced technology to optimize nursing outcomes and improve the quality and safety of healthcare systems. (UO 10)
5. **Communication and Collaboration** - Exhibit strong communication skills, effectively collaborating with individuals, families, communities, and the interdisciplinary healthcare teams to promote optimal patient outcomes. (UO 1)
6. **Clinical Judgment** - Apply critical thinking and evidence-based decision-making to assess, plan, implement, and evaluate patient care. (UO 3, 4)
