

# SOCIAL WORK, BACHELOR OF SCIENCE (BS)

**Program Director: Dr. Christopher Streidl**

Social work is a profession that applies knowledge about people and society to help persons, groups, or communities meet a diversity of needs, solve a wide range of problems, promote social justice, and assist people in becoming empowered. The baccalaureate program in social work prepares students for generalist social work practice. As beginning professional social workers, graduates typically work in the areas of child welfare, juvenile and adult corrections, public assistance, health and mental health, aging domestic violence, and chemical dependency, among others.

The undergraduate program in social work awards a Bachelor of Science degree in Social Work and is accredited by the Council on Social Work Education, the national accrediting agency for social work. Accreditation standards require a solid core of courses on social welfare issues and policies, social work practice skills, basic social science research methods, and a broad background in the liberal arts with special emphasis on psychology, biology, economics, politics, sociology, organization, and diverse ethnic groups. In fulfilling the academic requirements for social work, students must also uphold the values of the profession of Social Work as expressed in the National Association of Social Work's Code of Ethics.

## Program Learning Outcomes

The six goals of the Social Work Program are as follows:

1. To graduate students with a baccalaureate (B.S.) degree in Social Work who are competent to begin generalist social work practice.
2. To graduate students who are well prepared to enter graduate schools of Social Work, either directly after receiving the undergraduate degree, or after a period of practice.
3. To contribute to the intellectual, ethical, and emotional development of our students in order to enhance their awareness and involvement as citizens in the broad social welfare issues of our times.
4. To sensitize students to the human condition in order that they might develop a respect for human dignity, diversity, and freedom.
5. For students who are uncertain about a career choice, to provide a clear and honest introduction to the responsibilities and rewards of a Social Work career, so that they can make informed career choices.
6. To help meet the human resource needs for baccalaureate level social workers in the diverse mix of rural, small town, and metropolitan areas from which our students come and to which many wish to return.

## Co-curricular and Experiential Learning

Students are encouraged to explore additional curricular and co-curricular opportunities. There is a strong correlation between long-term student success and participation in the following types of programs and activities:

1. Field trips
2. Career Education
3. Internships/ Field Experience
4. High-Impact Practice (HIP) designated classes
5. Job shadowing
6. Community Engaged Learning

## Important Curriculum Guide Notes

This Curriculum Guide is provided to help SRU students and prospective students better understand their intended major curriculum. Enrolled SRU students should note that the My Rock Audit may place already-earned and/or in progress courses in different, yet valid, curriculum categories. Enrolled SRU students should use the My Rock Audit Report and materials and information provided by their faculty advisers to ensure accurate progress towards degree completion. *The information on this guide is current as of the date listed. Students are responsible for curriculum requirements at the time of enrollment at the University.*

**\*\* This document is meant to serve as a guide. Some planners may show more than 120 credits because faculty have created flexibility in choosing courses. However, only 120 credits are required to obtain a degree. Please consult with your academic adviser and refer to your curriculum guide prior to registering for courses. This plan should be reviewed, and verified, by you and your academic adviser at least once each academic year.**
